-./:;=<=>_~

A pixelated, black and white graphic of the mathematical expression $e^{im\varphi} = e^{-im\varphi}$. The characters are rendered in a low-resolution, dithered style, giving it a retro, digital appearance. The expression is centered horizontally and consists of the base e , a superscript $im\varphi$, an equals sign, and a superscript $-im\varphi$.

$$= \frac{1}{\pi} \ln \left(\frac{1}{1 - \frac{1}{2} \ln 2} \right)$$

A pixelated, black and white graphic of the mathematical expression $E=mc^2 + \text{energy}$. The characters are rendered in a blocky, digital font. The equals sign is composed of two horizontal bars. The superscript '2' is small and positioned above the 'c'. The word 'energy' is written in a simple, sans-serif style. The entire graphic has a low-resolution, dithered appearance.

Q.E.

Figure 1 consists of two horizontal bar charts. The top chart is labeled '1970s' and the bottom chart is labeled '1980s'. Both charts show the distribution of the number of children per woman. The x-axis represents the number of children (0, 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20). The y-axis represents the percentage of women. The bars are shaded in a gradient from light gray to dark gray. In the 1970s, the distribution is centered around 2 and 3 children. In the 1980s, the distribution is shifted slightly towards 2 children, with a higher proportion of women having 2 children and a lower proportion having 3 children.

A large, pixelated, grayscale letter 'O' is centered on a white background. The letter is composed of many small squares in various shades of gray, creating a textured, blocky appearance. The overall shape is a circle, but the edges are jagged due to the pixelation. The letter is oriented vertically and takes up most of the frame.

Will print out:

Number of OpenMP threads in use: 2

Number of CPUs available: 2

on a bi-pro (or dual core) computer

2 = 2x2 = 1

सुखं दुःखं च मृत्युं जन्मं च
मोक्षं च विमोक्षं च विमोक्षं च

Handwritten text in a cursive script, likely a signature or name, rendered in a pixelated, black and white style. The text is written on a white background and appears to be a stylized representation of a name, possibly "Handwritten" or "Handwritten" with a large "H" and "D".

$$N_v = \frac{(N_{\text{side}} + 1)(3N_{\text{side}} + 1)}{4} \simeq \frac{N_{\text{pix}}}{16}$$

$$N_{\text{template}} = \frac{1 + N_{\text{side}}(N_{\text{side}} + 6)}{4}$$

A pixelated, black and white graphic of the text "Welp! It's a long day". The text is rendered in a jagged, blocky font style, with each letter composed of many small squares. The exclamation mark is particularly prominent, with a large, dark, pixelated dot. The overall aesthetic is reminiscent of early digital art or a low-resolution digital font.
